Students Provide Solution to Your Economic and Holiday Stress

West Palm Beach, Florida—Nov. 3, 2008— With the economy forcing many people to give up or cut back on the “extras” in their personal budgets, Keiser University wants you to know it isn’t necessary if your favorite extra is a soothing massage. A 50-minute visit to Keiser University’s student massage clinic will cost you just \$25, and will leave you feeling invigorated and rejuvenated to deal with balancing that checkbook or a last minute decision to host a holiday dinner.

Associate of Science Massage Therapy students at Keiser University are required to complete 1,000 classroom hours in massage therapy, twice the amount the state requires. Students then round out their education by completing the general education required to earn an associate degree in massage therapy. Keiser students are evaluated by the Massage Therapy Program Director and/or an instructor before working on the public in the clinic.

“Each student must have completed a specified number of courses and successfully passed monthly hands-on practicals performed on other students or licensed massage therapists,” said Jan Saeger, BA. LMT, NCTMB, CESMT, RYT, Massage Therapy Program Coordinator. “We appreciate every opportunity to introduce future massage therapists to our community as we believe they are well educated and highly trained to demonstrate their exceptional knowledge and skills.”

The student massage therapy sessions are available by appointment only and fill up quickly. Holiday gift certificates are available. Please call 561-471-6000 to schedule your appointment. The campus is located at 2085 Vista Parkway in West Palm Beach.

Keiser University is Florida’s leading statewide provider of career-focused, post-secondary education and is regionally accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. Keiser University serves approximately 12,000 students seeking associate, bachelor’s and master’s degrees in over 40 high demand degree programs at its 13 campuses and through its online and Graduate School divisions. The Graduate School opened in 2006 and offers the Executive MBA program among a variety of master’s degrees in education and criminal justice. Keiser University’s educational reach extends globally through its international programs including the Latin Division and cooperative agreements in China and the Eastern European nation of Moldova.

According to a *Community College Week* analysis of U. S. Department of Education data released June 16, 2008, Keiser University was named the nationwide leader in production of Associate of Science graduates in Health Professions and Related Sciences for the third straight year (2006-2008).
